

27th August 2018

All Iplex Customers

Dear Customer:

RE: Price Increase Effective On 1st October 2018

Our costs have increased significantly in recent months off the back of a long period of rising costs influenced by imported raw materials and energy. To continue to improve your service and provide the great products you expect from Iplex, we wish to advise that selling prices for the product groups listed below will increase effective on the 1st of October 2018 and be applied across new quotations and standard price lists:

- All Iplex PVC-U pressure pipe and fittings, Rhino[®] PVC-M pipe and Apollo[®] PVC-O pipe (+7%)
- Iplex PVC-U non-pressure pipe and fittings (+7%)
- The Gatic[®] range (+4%)
- AVK[®] valves (+4%)
- Telco Pits (+2.5%)
- Drainage coils (+5%)

We trust that this advance notice will enable you to prepare and advise your customers in a timely manner. A new price file will be forwarded to you during the month of September.

All orders delivered on or after the 1st October 2018 will be invoiced at the new prices.

The recent rise in Polyethylene raw material costs continues to be absorbed by Iplex, however our Polyethylene based range of products may be subject to future change.

We do appreciate your understanding and thank you for your valued business and ongoing support.

Yours Sincerely,

Shaun O'Brien
Head of Sales
